

Commitments: in-house vs Umbrelly

ON YOUR OWN

In-house commitments

- ✗ If your usage later **drops**, **you're locked in** and can't get out.
- ✗ You keep paying for capacity you no longer use — **you overpay**.
- ✗ All of the **downside risk sits with you**.

WITH UMBRELLY

Insured commitments

Risk-free

- ✓ Commitments are **risk-free and insured**.
- ✓ If a commitment generates losses, **we cover them with AWS credits**.
- ✓ Our **automated algorithm** makes smart commitments, balanced to your real needs.
